Nancy Went in 2:07 1/2.
Special to the Indianapolis Journal.

St. Joseph, Mo., Sept. 15.—The third day of the St. Joseph exposition and races saw five thousand persons on the ground. Nancy Hanks was the great drawing-card. She was to go to lower her record of 2:07 on a regulation track. Double brought out the wonderful little mare, who was given a grand reception. On the second score Miss Nancy went away under favorable circumstances, with the Joker fourth, and company. Old turkeys thought the start was a trifle slow, and when she reached the first quarter in 32 they were a trifle nervous and became more so when the half clicked at 1:06. The old-timers breathed easy when the three-fourths showed up at 1:36, and at this point a second runner was added, and the little mare came tearing down the home-stretch at a 2:05 gait, but she could not recover her somewhat unfavorable start and her record was not lowered, though nearly under the wire in 2:07 1/2. The crowd was so pleased that the post-up enthusiasm broke forth wildly for the mare and her driver.

ANOTHER WORLD'S RECORD.
Taylor Wins the Mile Handicap Bicycle Race in 2:15 2/5.

SPRINGFIELD, Mass., Sept. 15.—About seven thousand people gathered at Hampden Park to see the first day's races at the Springfield Bicycle Club's tournament to-day. The track was well dried out from yesterday's rain, and good time was made in every event. The one-mile invitation race, in which eight of the fastest riders in the country took part, developed a great surprise, both Tyler and Windle reaching the tape before Zimmerman, who was apparently not in the best condition. The field in this event was beautifully bunched all the way to the home-stretch, Tyler being slightly in the lead, and never headed.

Windle followed, scarcely a length behind, beating Arthur Zimmerman by half a length. In the half-mile open race, the liver Tyler and Zimmerman met again, and the Jerseyman won with little trouble. Lumsden, of Chicago, also finished ahead of Tyler. Windle captured the half-mile handicap from scratch in fine style, moving down fifteen men on marks. In the mile handicap no scratch man won a place, but George P. Taylor, with "Jersey Lightning," Zimmerman finished fourth in 2:15 2/5, which, with the time for three-quarters, broke the competition record. Taylor now holds both the mile against time and the competition record from a dead start.

The Murphy brothers, with A. L. Banker, coached the exhibition mile on the trioliet safety, and made new records for all distances, the mile being run in 2:14.

INDIANA AND ILLINOIS NEWS

Young Husband of Lake County Shoots Himself at the Grave of His Wife.

Grief for the Loss of His Beloved Companion Supposed to Have Been More than He Could Endure—K. of P. Encampment at Madison.

VALPARAISO, Sept. 15.—Grief because of the death of his wife caused Ezra Brownell, of Lowell, Lake county, to attempt suicide yesterday. He went to the village cemetery, where his wife was buried, and, after pitifully bemoaning her death, fired the shot which produced a mortal wound.

His body fell across the grave and that he lay there for several hours later, weak and exhausted from the loss of blood. He refused to receive medical attention and is determined to remain one, but will be of the same dimensions, having a capacity of four car-loads per day.

New Factories at Summitville.
Special to the Indianapolis Journal.

SUMMITVILLE, Sept. 15.—Summitville bids fair to become one of the prominent manufacturing points of the gas belt. Work is progressing on the brick factory and C. A. Sigel's glass factory. J. H. Rhoads's large glass works, with two tanks of seventy cubic capacity and four hundred men on the payroll, will be constructed as soon as the necessary side-tracks are built. This will be the largest glass factory in Indiana, outside of the plate glass factories. The firm of Calloway & Co. has begun operations on its factory. It has purchased buildings in the East, which are iron, and arranged so they can be shipped here, set up and bolted together and be ready for operations in short order. The first of these three factories will be started about Dec. 1. C. C. Cowell will add to the industries by building a tile factory. It will be separate from the plate glass factory, and of the same dimensions, having a capacity of four car-loads per day.

K. of P. Encampment at Madison.

MADISON, Sept. 15.—There are seventy-five tents at the Pythian encampment, with accommodations for three hundred men. Only about two hundred are present, however, on account of the bad weather. The regimental parade, under Colonel Vanosdol, was quite surprising. Some Grand Army Men Want the Encampment at Chicago During the Fair.

The Only Obstacle Against Which Hoosier Capital Boomers Have to Contend—Corrected Indiana Population Statistics.

WORKERS FOR INDIANAPOLIS.
Hoosiers at Washington Organize to Secure the Next G. A. R. Encampment.

WASHINGTON, Sept. 15.—There is only one thing in the way of the Hoosiers securing the G. A. R. encampment for Indianapolis next year, and that is the talk, and in some quarters a half-determined desire, to take it to Chicago, so that in attending the soldier's yearly reunion the world's fair can be seen.

If this obstacle, which does not now appear very formidable, is gotten out of the way by the Hoosiers, it looks as though they would get the encampment for 1893 by acclamation. The improbability of holding the encampment at Chicago during the world's fair is conceded on all sides, for it is acknowledged that the encampment would there be a secondary affair compared with the fair, and that Chicago would be so crowded that the soldiers could not secure accommodations except at extortionate rates. Besides, the tickets to the encampment at Indianapolis would be made good to go or return via Chicago without material additional cost.

A meeting of Indianapolis temporarily residing in this city was held at the Riggs House at 4 o'clock this afternoon, and a plan of operation agreed upon for securing to Indianapolis the encampment. Rev. Dr. J. C. Schuler, Christian Church, presided. Daniel M. Randall stated the object of the meeting. Encouraging words were spoken and ideas for the conduct of the encampment were discussed. Attorney-general Miller, Third Auditor W. H. Hart, Capt. John Leonard, Augustus D. Shaw and others. A committee composed of Daniel M. Randall, Perry S. Heath and Will Fortune was appointed to secure rooms for Indianapolis headquarters. The Hoosiers will be Indiana headquarters during the encampment week for not only the visitors but the committee working to secure the encampment for Indianapolis. It was the general opinion of those present at the meeting this afternoon that Indianapolis is as sure of securing the encampment as she is of achieving any success in the State.

Shields's division of Indiana soldiers will go on an excursion to Keokuk and Harrisonburg on Friday of next week, to go over some of the battle grounds. It has been arranged that Stonewall Jackson's command and the citizens of Harrisonburg will give the Indiana boys a reception and a military escort. There will be speaking, an address of welcome and responses. Dinner and entertainment will last over night. They leave at 7:30 A. M. At Keokuk, Iowa, they will visit the field where they defeated Jackson. Three Indiana and Ohio regiments are expected to go upon the excursion. Col. S. C. Odell is known to the Hoosier boys, is taking an interest in this trip.
